

UNFAIR to NATURE

The longer you eat impure food the more harm it does you. Nature works hard to keep you well—in fit condition to meet the requirements of life—but nature expects you to do your part. When you fill your stomach with poor or impure food you are unfair to nature and an enemy to yourself, for no constitution can withstand the weakening effects of such a continued strain.

We sell the food that aids nature in its work of building up a strong and healthy constitution. You aid yourself when you buy what nature demands. A dollar gets as much at this store as at any other place—and it is the kind that builds. Everything to eat, use and wear.

WASATCH STORE CO.

LAMBS ACTIVE, STEADY; CATTLE AND HOGS HIGHER

HEAVY RECEIPTS ALL POINTS
KEEP MARKET QUIET.

Western Lambs and Feeders in Good Demand—Country Buyers Looking for Bargains in Stockers—Hog Market Recovers with Upward Trend—Notes and Quotations

The Sun Special Service.

KANSAS CITY, Mo., Sept. 27.—Cattle receipts today were about 6000 less than a week ago, and with heavy receipts in Omaha and Chicago, the market remained quiet. Chicago received 14,000 northwest grassers, and the Omaha run of 21,000 was mostly from the range country. Hog prices showed a further advance. The top price was \$17.35 and the bulk of the offerings sold at \$16.50 to \$17.25. At the outset lambs sold slowly, but later became active at steady prices.

Receipts today were 20,000 cattle, 7000 hogs, and 17,000 sheep, compared with 32,000 cattle, 5000 hogs, and 15,000 sheep a week ago, and 36,500 cattle, 12,500 hogs, and 14,000 sheep a year ago.

Cattle prices held steady, with some of the medium classes slightly better than the extreme low point late last week. However, quality was plain. Full fed steers were lacking. General bunches of wintered grassers sold at \$13.50 to \$15.00, and straight grass steers brought \$7.75 to \$13.50. All markets are well supplied with plain grassfat steers. Omaha and Chicago quoted further declines in grass steers today. Cows and heifers were steady, but demand was more active than late last week. Veal calves were steady to twenty-five cents lower. Heavy grades showed the decline.

A good many country buyers of stockers and feeders are here to start the week. Few early sales were reported but indications are that demand will strengthen in following days. Buyers want common stockers and feeders at bargain prices, and the better grades are in moderate supply. Stock calves were quoted weak.

After showing a sharp decline the middle of last week, the hog market started up Friday and was higher again today. The top price today was \$17.35, and the bulk of the offerings sold at \$16.50 to \$17.25. Today's market was quoted steady to fifteen cents higher. Pigs sold slowly at steady prices.

Liberal receipts of sheep and lambs caused a late start in the sheep division, but demand finally became fairly active, with fat grades steady and feeding lambs twenty-five cents lower. Western lambs sold up to \$13.00, and feeders up to \$12.75. Ewes brought \$6.25 to \$8.75, and wethers \$7.00 to \$7.50. The bulk of the offerings came from the West.

OUTLOOK DURING COMING YEAR IS MOST FAVORABLE

Good prices will prevail during the coming year for dairy products, said J. E. Dorman, chief of the western dairy division of the department of agriculture, at Salt Lake City last Saturday. Although feed is plentiful through the foresight of hundreds of farmers who have erected silos, and labor is easier to obtain than for several years past, yet there is little danger of over production. This is the only thing which can possibly force the prices down at this time, Dorman says.

This stabilized price insuring a good return on dairy products, however, promises to stimulate production along dairy lines to such an extent that it will more than offset within the next few years the temporary disadvantage of high prices. The high prices of feed and its exceptional shortage last year caused farmers to sell many dairy cows at big sacrifices, giving a tremendous blow to the dairy industry. For the next year, at least, prices for the products of the dairy industry must be kept up for the benefit of the industry in the intermountain states.

The outlook now, Dorman thinks, is extremely bright for the dairyman who has had the courage during the past few years to keep his cows.

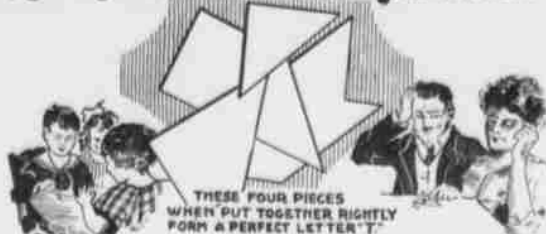

WILL DIP SHEEP HERD AT COLTON FOR SCABIES

Dipping of 1163 sheep belonging to David Robinson of Fountain Green has been ordered by the state live stock board, on the ground that they are infected with scabies. The dipping will be supervised by Charles Redburg, sheep inspector for Sanpete county, with headquarters at Manti, and will be done at Colton, the shipping point for the summer range of these sheep, which was in the vicinity of Scofield.

A large number of lambs were recently shipped from Colton, and as soon as word had been received that Robertson had reported that his sheep appeared to be infected with some disease which might be scabies, Thomas Redmond, secretary of the state live stock board, made an investigation. He inspected the lambs being shipped, and found no scabies.

ADDS FIFTEEN POUNDS FEELS FINE, SLEEPS LIKE LOG

PAINS AND BAD SPELLS ALL
FORGOTTEN NOW.

This Patternmaker Took Advice of Friend and Used Tanlac—Where Work Was Drag Is Now Pleasure—Sure Thinks Well of Tanlac—Used Only Five Bottles of Remedy.

"Tanalac has not only added fifteen pounds to my weight, but has rid me of all my ailments and built me up to where I feel better than I have in a long time," said M. Crawford, a well known patternmaker living at 1027 West Second avenue, Spokane, Wash. "During the past two years I have been subject to frequent spells of indigestion which were so severe as to almost lay me out. My appetite left me and the little I did eat I found myself to eat bloated me up with sour gas and kept me feeling miserable for hours. I suffered with severe pains in my back and constant spells of dizziness, and was so restless I hardly knew what it was to get a good night's sleep. I lost weight all the time and got so weak and run down that I had hardly any life or energy left for anything."

"I began taking Tanlac on the recommendation of a friend, and it was a lucky day for me when I did, for my appetite began to improve at once and I got to feeling better in every way. I have now taken five bottles, and if I ever felt better in my life I don't know when it was. I eat like a wolf of just anything and everything I want and never have a touch of indigestion, and have built up rapidly, both in weight and strength. I sleep like a log at night and wake up in the morning feeling brimful of life and energy and more than ready for my day's work. Before I got Tanlac my work was a drag, but now I do it with ease and pleasure. I certainly ought to think well of Tanlac, for it has brought me back my health and I am glad to give it my strongest endorsement."

Tanalac is sold in Price by the Price Drug company and by the leading druggist in every town.—Advt.

CAUSES TROUBLE.

The fact that there is a Gunnison, Colo., a Gunnison, Miss., and a Gunnison in Utah is causing considerable confusion in the dispatch of the United States mails, according to the post-office officials. Special caution has been sent out to all postmasters and clerks to note the addresses on packages and letters for these places carefully.
